A Voyage of New Colours

Limited Edition Supreme Wrapping Film™ Series
Inspired by Justin Pate

Fresh Hues from the Sea and Night Sky

Voyage from sea to sky with Avery Dennison's new line of Supreme Wrapping Film colours, inspired by internationally recognized professional graphics installer Justin Pate.

Fresh hues and deep metallics take your project from new depths to new heights. Stunning pearls like Bahama Blue and Black evoke the dramatic beauty of the Caribbean's range of colours with a sheen that is sure to please. As Described by Justin Pate

Gloss Metallic Milky Way

“It reminded me of looking up at the stars on a cool, moonless night... Perfect for a full wrap or accenting the roof.”

Gloss Metallic Meteorite

“A crisp shade of gray with sparkles. Smooth style with some sizzle.”

Pearl Black

“It has a mysterious depth to it, which immediately brought to mind the monolith from one of my favourite movies, 2001: A Space Odyssey.”

Pearl Bahama Blue

“I love how the hue of the Blue Pearl shifts from different angles, just like the ocean on a sunny day.”

“The heavy metallic flake of Milky Way adds so much depth to the colour and it’s wonderful to use, of course, like all other Avery Dennison SWF900 films,”

- Sean from Designer Wraps, Justin Pate Milky Way
