

New High Performance Avery Dennison® Edge Sealer

A long-lasting liquid sealant used in combination with Avery Dennison® Films to create bold and durable graphics.

Avery Dennison® has developed a high performance Edge Sealer for sealing the edges of Avery Dennison® installed films which aids in preventing lifting due to water, chemical penetration and environmental conditions. The Edge Sealer applies easily and dries fast without dilution, to a transparent gloss finish. The long lasting UV stable and durable Edge Sealer can be applied to installations ranging from above-the-waterline Marine to Automotive and Fleet graphics and wraps, protecting the edges of a finished graphic from edge lifting due to water, chemical penetration and environmental conditions.

Avery Dennison® Edge Sealer supports general applications including: Above-the-waterline Marine, Automotive & Fleet Graphics & Wraps.

Typical Avery Dennison® film:

- Avery Dennison® Supreme Wrapping™ Film
- Avery Dennison® MPI Digital Print films with matching DOL
- Avery Dennison® MPI Perforated Window films with matching DOL
- Avery Dennison® Signage and Reflective Films

Key Features & Benefits

- Resists water & chemical penetration - improving your wrap's longevity & sustaining graphics quality
- Applies easily & dries fast, without dilution - enabling efficient & productive installations
- Transparent, glossy finish - preserves your high quality visuals & finish

Please refer to the relevant Technical data sheets and TB for more details.
