Avery Dennison Ultra Clear Printable Window Film Series

Print Design Collection

The Avery Dennison Printable Window Film Series offers virtually invisible, high-performance print films, which enable stunning graphics for applications where design matters.

The Avery Dennison Ultra Clear Printable Window Films Series offers virtually invisible, high-performance films, which enable stunning window graphics for applications where design matters. These optically-clear films are designed for full window coverage - unprinted areas preserve glass clarity, so there is no need to cut around images.

Avery Dennison® SP 1540 Ultra Clear is our premium optically-clear printable film. A PVC-free sustainable solution, with 3D conformable properties that breaks down application limits to get the most out of your creative projects. Bringing versatility with excellent printability across all main digital platforms, option to use as an overlamine, and an extended durability make it the product of choice for long-lasting architectural and interior design applications.

Avery Dennison® SF100 Ultra Clear is a short-term solution ideal for applications such as printed window graphics or decorative decals that require a removable ultra-transparent film. Featuring an ultra-gloss finish that makes graphics on glass sparkle; across retail, office and trade show applications.

Product	Key features	Face	Adhesive	Print	Sizes
SP 1540 Ultra Clear	<ul style="list-style-type: none"> - PU Premium Film, sustainable - 3D conformable - High durability (up to 12 years) - Dual-purpose, use as overlamine - Printable on all main platforms 	PU 40µm	Permanent	Solvent Latex UV	1.37 x 25M 1.52 x 25M
SF100 Ultra Clear	<ul style="list-style-type: none"> - Intermediate film - Short-term applications - Optimal rigidity for easy application 	PET 50µm	Removable	Latex UV	1.37 x 91.4M

Avery Dennison® SP 1540 Ultra Clear is our premium optically-clear printable film. Preserving glass clarity on unprinted areas, this PVC-free sustainable solution, with 3D conformable properties breaks down application limits to get the most out of your creative projects. Bringing versatility with excellent printability across all main digital platforms, option to use as an overlamine & with an extended durability making it the product of choice for long-lasting architectural and interior design applications.

Key Benefits

- **Optically clear** -> preserving glass clarity surrounding your designs
- **PVC-free** -> bringing you a new sustainable solution
- **Highly durable** -> 12 yr indoor, up to 8 yrs outdoor printed & laminated
- **3D Conformable** -> making curved surfaces & vehicle wrapping possible
- **Dual-purpose** -> serves as the print film and the laminate
- **Versatile** -> printable across all main digital platforms

Recommended Uses

- Architectural & interior design window graphics
- Indoor & outdoor visual communication on glass
- Demanding 3D curved surfaces
- Long-term applications
- Vehicle wrapping applications
