ADfend™ **Pro** Gloss Finish

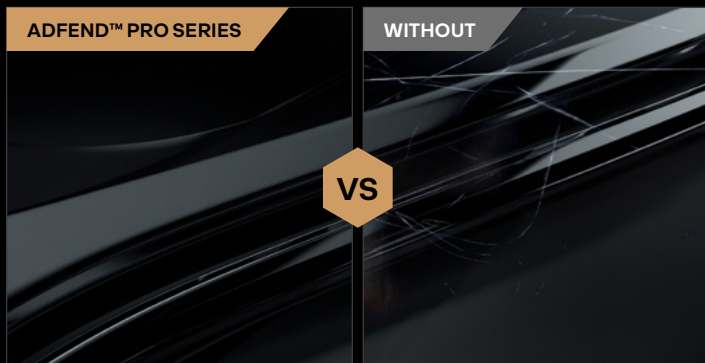

Offers a clear, high-gloss finish designed at 90 Gloss Units to maintain a showroom-quality appearance.

ADfend™ **Pro** Matt Finish

Provides a sophisticated, transparent matte finish. Designed at 15 Gloss Units for a TRUE matte look.

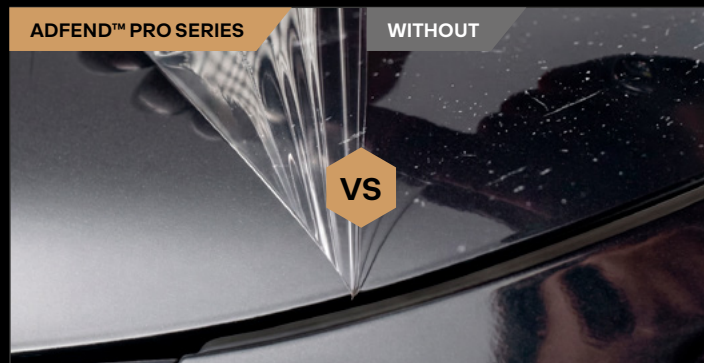

Performance when you need it most!

- Room temperature or heat-activated self healing
- Up to 10 years UV resistance
- Easy to apply and remove
- Premium finish
- Durable optical clarity
- Smooth, uniform surface

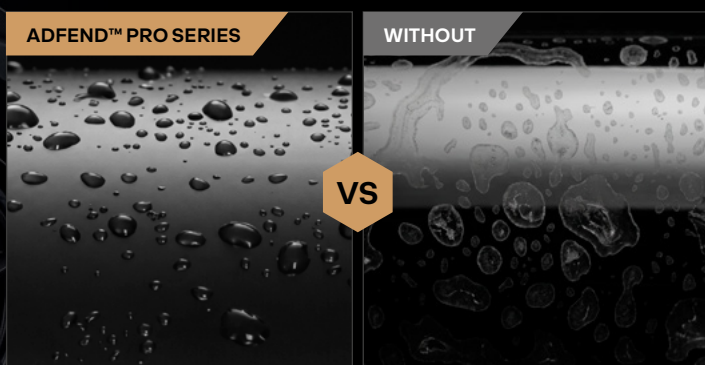

Self-Healing Top Coat

Heat-activated recovery helps superficial, everyday scratches disappear.

Stone Chip Protection

Advanced paint protection films create a barrier for paintwork against small to medium debris, stones and scratches.

Hydrophobic Surface

The film repels water, causing it to bead and roll off, which reduces water spotting and makes routine washing easier.

Stain Resistance

The film provides a protective barrier against some contaminants like bird droppings and tree sap, preventing them from directly etching your vehicle's clear coat.

Film Structure

Protection Layer

The PET layer protects the film before it is applied, and accentuates the finish (excluding ADfend Pro Matte)

Top Coat Layer

A beautiful first line of defence. Durable with self-healing and a liquid glossy or matte finish.

Core Layer

A strong and flexible foundation made of TPU that ensures a uniform look, and long term impact resistance.

Adhesive Layer

Creates a secure and safe bond with your bodywork. Removable at the end of life-time.

ADfend™ Pro Series

Benefit for Installers

Enhanced Adhesion Build-Up (Tack): Features a new formulation that provides a tackier initial grip, allowing the film to securely lock onto the vehicle's surface much quicker.

Potential for Faster Installation Speeds: The combination of the enhanced adhesion build-up and premium conformability offers possibility for faster installation speed when advanced wet application techniques are mastered.

Premium Conformability: Delivers high flexibility, empowering you to efficiently adapt the film around complex vehicle curves and contours.

Finishes: Offer your customer High-Gloss finish with ADfend Pro or True Matte finish at 15GU with ADfend Pro Matte.

Application Tools

Avery Dennison Application Gel

Avery Dennison Application Gel is a transparent gel designed to support the application of paint protection film including ADfend™ Pro Series. The gel facilitates the ease of application keeping the substrate well moisturized providing the right tack and positioning of the film during installation. The Avery Dennison Application Gel residues can be easily cleaned after application, even when fully dried. The Avery Dennison Application Gel is available in a 1 L bottle and in a 5 L refill canister, the gel can be used with the Avery Dennison Spray Bottle 1.2 L as well.

Surface Cleaner 1ltr UN 1993 LQ Class II

The Surface Cleaner is a high performance cleaner that enables you to remove all kinds of residue using one single product, including dirt, wax, tectyl, light silicone, cock-pit sprays, and more. A highly userfriendly cleaner, especially designed for the degreasing phase prior to application.

Spray Bottle

The Spray Bottle is a high quality bottle used during the wet application, to distribute the water/soap mixture evenly onto the application surface & material. The bottle can be used in all orientations/ angles and will not stop the supply of the liquid even when turned upside down. The bottle has a volume of 1.2 L.

PPF Squeegee Pro Flex (Red)

Size: Small 65 × 75 mm
Size: Large 100 × 75 mm

PPF Squeegee Pro Rigid (Blue)

Size: Small 65 × 75 mm
Size: Large 100 × 75 mm

The PPF Squeegee Pro series is available in two convenient sizes. The squeegees are also available in a rigid construction (Blue) or a flexible construction (Red) for applicators to choose depending on their preference.
