

Avery Dennison® Automotive Window Films

Non-Reflective

Introducing AWF Non-Reflective Films - part of the Avery Dennison Automotive Window Film range. These non-reflective and colour-stable films are metal free, with high solar performance and good shrinkage. An excellent choice for minimal mirror effect.

The films are designed with professional installers in mind, using nanotechnology, and they are available in several light transmission levels. AWF NR Pro is one of the leading heat rejection films in the market, keeping cars cool and comfortable. With a visually appealing and stable graphite colour, the range offers a 5-year warranty.

FEATURES

- > High-end stable graphite colour
- > 5% to 50% light transmission options
- > High solar performance with 99% UV block
- > Up to 94% glare reduction, with minimal mirror effect
- > Metal free material using nanotechnology

- > 38 micron (1.5 mil) thickness
- > Good shrinkage for a colour-stable film
- > 5-year warranty

BENEFITS

- > Keeps cars cool, comfortable and UV-screened
- > Enhances style of vehicle and privacy
- > Range of VLTs to suit the individual tinting customization
- > Zero interference with electronics

APPLICATION AREAS

Glass substrates:

- > Personal vehicles
- > Commercial and fleet vehicles
