

Avery Dennison MPI™ 1105 Wrapping Series

High Performance. Supreme 3D conformability. Stunning printability.

The ultimate wrapping solution - MPI™ 1105 Wrapping Series films bring new levels of image quality, 3D conformability and printability to vehicle wraps. Outstanding colour 'pop' and an ability to cope easily with challenges such as rivets and corrugations make the MPI™ 1105 Wrapping Series the products of choice across many different applications.

MPI™ 1105 Easy Apply RS™ uses patented air egress technology to

ensure the same application speed and convenience as Avery Dennison Supreme Wrapping Film. That means endless creative possibilities for the most demanding private vehicle and commercial fleet wraps. The MPI™ 1105 Wrapping Series films offer an excellent printability on all major digital platforms, solvent and latex ink platforms for outstanding full colour graphics.

* Zone 1, EU, vertical exposure, in combination with Digital Overlamine DOL 1460 Max. For optimal performance of the MPI™ 1105 Wrapping Series, use Avery Dennison Digital Overlaminates (DOL). More information: graphics.averydennison.eu/dol

** For more information please refer to Technical Bulletin 5.16 - Application of Avery Dennison MPI™ 1105 with contact to petrol
