

# Avery Dennison® Graphics solutions for Caravans

## Open your horizon

**The Avery Dennison® Caravan Portfolio opens up new opportunities for caravans and mobile houses. It offers high performance coloured caravan products and a wide choice of digital printing media, wrapping and protection films.**

This portfolio is designed to meet many different customer needs. It includes several adhesive technologies, giving optimum adhesion to several substrates; a customized colour matching service; and a range of “made to order” products specially designed for decorations and accents on Caravans.

**FEATURES**

- Wide selection of Caravan, Digital Printing, Wrapping and Protection films for caravan application
- Several adhesive technologies for all substrates: High Tack, Low Temperature, Easy Apply and Easy Apply RS
- Conformability on 2D or 3D surfaces
- Custom colour match service for all Caravan products
- Printable; using UV, eco-Solvent, Solvent or latex inks
- Protection films for additional shielding
- Contour Marking tapes for increased visibility

**BENEFITS**

- One portfolio to fit all Caravan converting needs, by mixing sign-cuts, printing and wrapping products
- Optimum adhesion on challenging surfaces (uneven, porous, or textured, e.g. hammer finish varnish) of caravans and trailers
- Faster and easier installation, with Easy Apply or Easy Apply Repositionable and Slidable technology
- Durable decoration, with excellent colour fastness and outdoor durability for finished graphics for up to 12 years
- Superb conformability on curved and corrugated surfaces for all 2D or 3D applications
- Long term removability: Fast and easy remove-ability of the material after use

**Product portfolio**

	Durability*	Width (m)	Conformability	MOQ (lm)	MOQ (RL)	Special Features
<b>Caravan products</b>						
<b>Caravan Intermediate</b> Perm - Easy Apply	7 years (B/W) 5 years (Colours)	1.23	2D+	3000	60 rolls	Easy Apply Technology - for an easier and faster application
