

Avery Dennison®

Reflective Chevron Markings

We've got your back.

Conditions on the roads can sometimes endanger the lives of people working in public services. Those needing protection at all times of day include fire fighters, police, emergency response personnel, and road safety/construction workers.

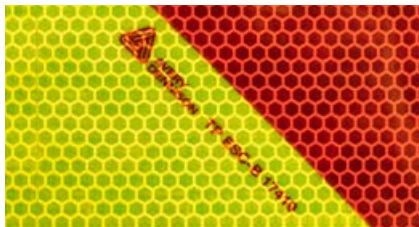

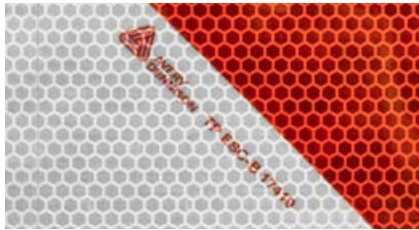

Effective hazard markings make vehicles much more visible, and the high performance of micro-prismatic reflective materials ensures that emergency vehicles stand out to passing motorists day and night. A vivid fluorescent yellow/red improves the day-time visibility of emergency vehicles in unfavourable weather conditions, giving drivers time to respond to hazards ahead.

FLEET MANAGER

- Easy Apply™ technology for faster application
- Improved safety, with better visibility of moving or stationary vehicles
- Striking and bold day-time appearance
- Bright and vivid night-time presence
- Solid metallic layer - resists water, dirt and reflectivity loss from dents
- Long term durability
- Higher resistance against abrasion

RECOMMENDED USES

- Easy to apply and conforms to simple curves
- Compliant with TPESC-B (France) and
- DIN 30710 (Germany)
- Available in several sizes:
 - 0.141 x 45.72m
 - 1.2 x 22.86m

Product Code	Product description	Direction	Width (m)	Length (m)
Fluorescent White/Red (According to TPESC-B)*				
CM2480001	Chevron White/Red	Left Marking	0.141	x 45.72
CM2490001	Chevron White/Red	Right Marking	0.141	x 45.72
CM2480002	Chevron White/Red	Left Marking	1.2	x 22.86
CM2490002	Chevron White/Red	Right Marking	1.2	x 22.86
Fluorescent Yellow/Red (According to TPESC-B)*				
CM2470001	Chevron Yellow/Red	Left Marking	0.141	x 45.72
CM2460001	Chevron Yellow/Red	Right Marking	0.141	x 45.72
CM2470002	Chevron Yellow/Red	Left Marking	1.2	x 22.86
CM2460002	Chevron Yellow/Red	Right Marking	1.2	x 22.86

* Note that special permission is required to use fluorescent yellow/red hazard marking on emergency vehicles.
