- > Efficient and precise conversion on commercial and craft plotters
- > Outstanding durability and color fastness
- > High-gloss finish
- > Excellent UV, temperature, humidity and salt spray performance
- > Pantone® color reference makes design easy

COMMON APPLICATIONS

Medium Life, Flat Surfaces

- > Indoor Signage
- > Outdoor Signage
- > Crafting

Full Color Confidence

HP750 High-Performance Film has been engineered to deliver best-in-class performance. The Patented Advanced Acrylic Adhesive Technology (PAAAT) enhances shelf life and results in industry-leading weeding. The stability of the adhesive reduces the potential for ooze, which gives sign shop staff the ability to delay weeding immediately after plotter cutting. With this level of film dependability, operators now have improved flexibility and time to stage production and implement their projects.

HP750 shares a consistent color palette of 100 memorable colors with the new SC950 Supercast Film. This shared palette delivers improved range of film use, enabling the exact combination of films to meet the demands of today's brands.
