

NT PerLite Ceramic 50i - Neutral Interior Films

Low reflectance, high performance

NT PerLite Ceramic 50i is a highly durable, ceramic-based interior window film. NT PerLite Ceramic 50i was developed using a proprietary patented advanced ceramic coating technology. As a result, its attractive neutral grey color delivers excellent solar energy rejection, with surprisingly low visible light reflectance. This makes NT PerLite Ceramic 50i an ideal solution for economic energy-saving projects when it's important to preserve view and retain a natural appearance - both inside and out. NT PerLite Ceramic 50i is particularly popular in residential and commercial projects.
