

MPI 6200 Premium Reflective

Noticeable, Reflective Graphics For Long-Term Durability.

Avery Dennison's **MPI 6200** is a premium digitally-printable, high-gloss reflective cast film providing consistent print performance across all printer platforms. With omni-directional reflectivity, MPI 6200 is not rotationally sensitive, making your graphics visible at every angle. It is ideal for night vision graphics and offers exceptional value for applications requiring extended durability.

The film is suitable for use on a variety of super-wide format inkjet printers using solvent, eco-solvent, UV-curable or latex ink.

KEY BENEFITS

- Reflective film makes graphics visible during the day and night
- Can be used over rivets
- Premium cast film for easy converting
- Outstanding outdoor performance
- Dimensionally-stable liner
- 7 year durability, unprinted

APPLICATIONS

- Fleet
- Vehicle
- Public Transport Graphics and Markings
- Outdoor Signage
- Emergency Response Vehicles

MPI 6200 PREMIUM REFLECTIVE

Highly Visible Graphics At A Great Value.

This conformable enclosed lens, retro-reflective sheeting meets or exceeds the requirements of Federal specification LS 300C (Reflectivity I) and ASTM 4956-99 Type I. It offers exceptional value for architectural, transportation and general signage applications.

Features	Advantages	Benefits
Premium cast film	Conforms well over rivets	Ideal for fleet applications and complex curves on vehicles
Engineer grade reflectivity (ASTM 4956, Type I)	Meets minimum government specifications for railroad, fleet and public transport	Ideal for government projects that have specification minimums
5 year durability printed	Ideal for long-term printed applications	Minimizes reapplication of graphics
Digitally printable material	Achieve any color reflective material	Eye-catching quality for graphic images
