

## Avery Dennison® SC900 RV EZ

### Top 5 Frequently Asked Questions

Avery Dennison SC900 RV with Easy Apply™ technology offers the freedom of expression and ultimate performance manufacturers expect to deliver with their RV and motorhome brands. Our Top 5 FAQs report how our SC900 films with our specially formulated RV adhesive enable new business opportunities:

#### *Why is SC900 RV EZ a benefit for my business?*

The first of three exciting benefits is the RV adhesive. Its superior performance delivers hi-tack adhesion in a wide range of temperatures – from below 40° F to as high as 90° F. This helps extend the manufacturing year. The second benefit is the Easy Apply technology. This decreases installation time and offers initial repositionability before the adhesion reaches full-tack strength. Finally, SC900 RV EZ is competitively priced. This is a high-value, high quality product.

#### *What is Easy Apply technology?*

Easy Apply is an air egress adhesive pattern which allows for simple and speedy application of large-scale graphics. This special pattern eliminates entrapped air bubbles and allows installers to reposition the material before squeezing it into place.

#### *How does air egress help me when applying a large-scale graphics and branded designs?*

No longer worry about lumps and bumps before and after you've applied your graphics. Air egress means a smooth, bubble-free finish for long lasting application on painted metals and smooth fiberglass.

#### *What color options are available?*

The design possibilities are endless. SC900 RV includes the full range of SC900 films and custom colors, plus standard industry colors of white sparkle, white opaque, black, medium charcoal metallic, black metallic, bright blue metallic and champagne mist metallic.

#### *Does Avery Dennison offer technical and installation support?*

Yes! Avery Dennison technical and installation specialists and product engineers are available to support you. Email us with your inquiry at [graphics.technical@averydennison.com](mailto:graphics.technical@averydennison.com).
